## **Preface:**

- Mageants Product Question/Answer is a perfect extension for the store owners who want to help customer to clear customer mind confusion. It's allow customer to ask question about product and get answer for that. All question and answer can only show which is approved by admin.
- Enable / Disable PartFinder.
- Allow Universal products.
- Only category filter allow.
- Custom search URL setting.
- Auto search setting.
- Import per request setting.
- Import History life time setting.

## Installation:

There are two ways of installing extension in magento2.

- 1) Using COMMAND LINE.
- 2) Manually install extension.

**Option 1:** Magento 2 install extension using COMMAND LINE (Recommended).

Follow below steps to install extension from the command line.

**Step 1:** Download the extension and unzip it.

**Step 2:** Upload it to code directory in your magento installation's app directory.  
If code directory does not exists then create.

**Step 3:** Disable the cache under System → Cache Management.

**Step 4:** Enter the following at the command line:  
php bin/magento setup:upgrade  
php bin/magento setup:static-content:deploy

**Step 5:** Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → Product part finder. The module will be displayed in the admin panel.

**Option 2:** Magento 2 install extension manually.

**Step 1:** Download the extension and unzip it.

**Step 2:** Upload it to code directory in your magento installation's app directory. If code directory does not exists then create.

**Step 3:** Disable the cache under System → Cache Management Edit app/etc/config.php file and add one line code: 'Mageants\_Product part finder' → 1

**Step 4:** Disable the cache under System → Cache Management

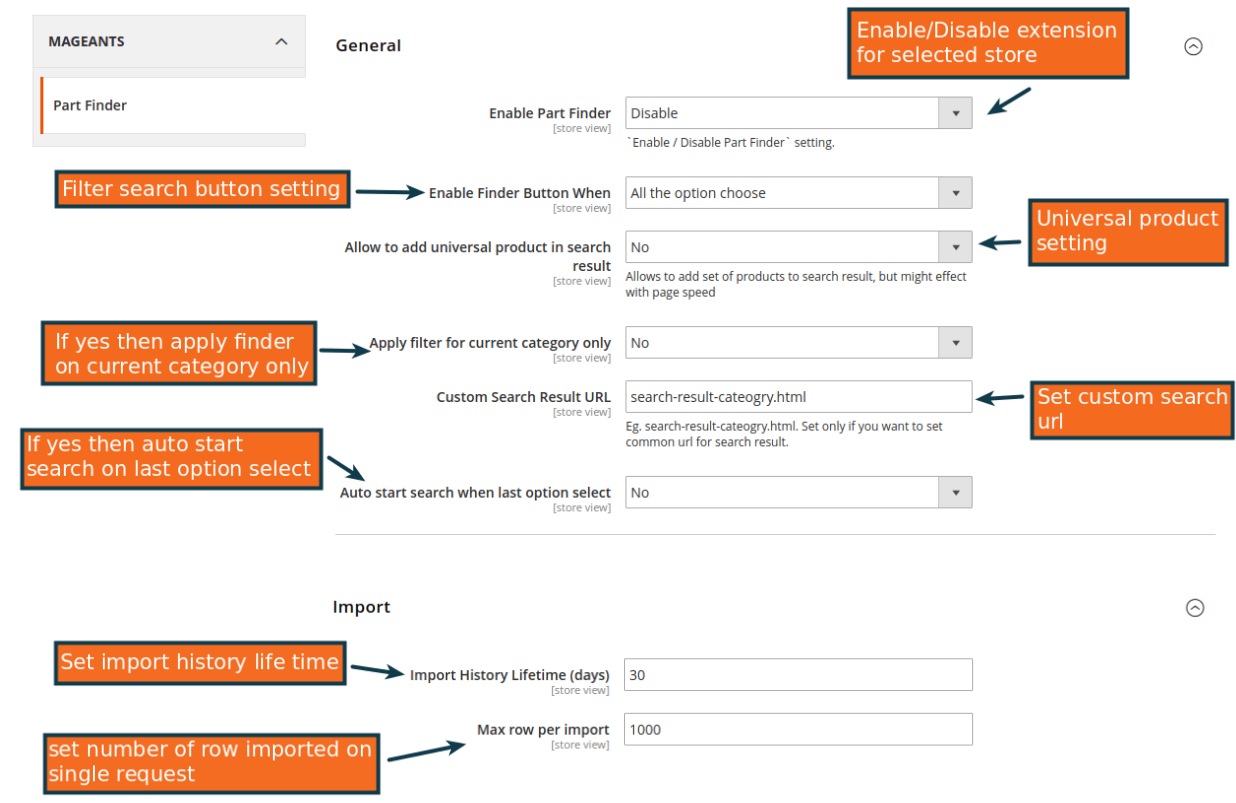

**Step 5:** Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → Product part finder, the module will be displayed in the admin panel.

## Backend Example

- After Installation of Extension login to magento admin panel to set configuration of the extension.
- As per below screen shot you can set all the settings here.

## Extension Configuration

Store → Configuration → Mageants → Part Finder

**MAGEANTS** ^
